STEWARDSHIP THOUGHT

The watchword today is “immediately.” Peter and Andrew, James and John all respond *immediately* to the call of Christ. May I be as open to God's call and as ready to use my talents in His service as those first disciples were!

**LAST SUNDAY'S OFFERING/
OFRENDAS DE LA SEMANA PASADA**

The weekly offering is extremely important to St. Anne Parish in order to meet our operational responsibilities. We ask that you prayerfully consider a consistent offering that will assist in meeting those responsibilities. For your consideration:

- ⇒ Sign up for the Weekly Envelope Program by registering with St. Anne.
 - ⇒ A convenient method is through Electronic Funds Transfer (EFT). This method is an easy way to provide St. Anne with your Sunday Offering.
 - ⇒ Enroll in a Script Program. This is a no cost way of supporting our ministries and programs, in addition to our weekly offerings.
- Your generosity is your return to the Lord for his goodness to you. Make an investment in the reign of God today!*

Catholic Action Principles *Focus on Your Strengths*

Rely on your strengths. To know your strengths, you must first acknowledge and then compensate for your weaknesses. Ask your friends and mentor: "What am I good at? In what areas should I improve? What do you do better than most people? Don't be afraid to ask for advice or help and don't be afraid to listen to the answers. Reflect and learn. Knowing yourself allows you to plan your days for peak performance.

In business, solicit comments on your products and services. Customer and employee compliments and complaints are important tools to improve efficiency. Who knows you better?

Accept your limitations. Accept your circumstances.

..., you should have more than enough of everything to succeed. Be the best you can be on the inside, and your beauty and confidence will be reflected on the outside.

-Bill FitzPatrick, The Catholic Action Principles

Nurses Notes

CHILDHOOD OBESITY

Childhood obesity has more than tripled in the past 30 years. The prevalence of obesity among children aged 6 to 11 years increased from 6.5% in 1980 to 19.6% in 2008. The prevalence of obesity among adolescents aged 12 to 19 years increased from 5.0% to 18.1%.

Obesity is the result of caloric imbalance (too few calories expended for the amount of calories consumed) and is mediated by genetic, behavioral, and environmental factors. Childhood obesity has both immediate and long-term health impacts:

1. Obese youth are more likely to have risk factors for cardiovascular disease, such as high cholesterol or high blood pressure. In a population-based sample of 5-17 year olds, 70% of obese youth had at least one risk factor for cardiovascular disease.
 2. Children and adolescents who are obese are at greater risk for bone and joint problems, sleep apnea, and social and psychological problems such as stigmatization and poor self esteem
 3. Obese youth are more likely than youth of normal weight to become overweight or obese adults, and therefore more at risk for associated adult health problems, including heart disease, type 2 diabetes, stroke, several types of cancer, and osteoarthritis.
- Healthy lifestyle habits, including healthy eating and physical activity, can lower the risk of becoming obese and developing related diseases.

PLEASE- Remember to use the phone in the office or at the AV area in the hall and not a cell phone to call 911. Your cell phone will reach Sacramento CHP and precious time will be wasted.
