Shepherds Field Olive Wood Handcrafts

“A group from the Holy Land (Bethlehem & Jerusalem) will be selling religious articles after masses on February 25 & 26 to support the Catholic Christian minorities in Bethlehem. As a tradition, many of the Catholic families in the Holy Land work in small workshops to produce religious articles from olive wood. These articles represent the Christian art of the Holy Land. In the past, they used to sell their artwork to pilgrims who visit the Holy Land. However, these days they are facing an economic hardship as very few tourists visit the Holy Land due to security issues. Many of the Catholic families immigrated and left the Holy Land. The percent of Christians in the Holy Land has dropped to less than 2%. Therefore, if this hardship continues as it is now, we believe that in a few years, there will be no Catholics in Bethlehem or Jerusalem. The struggle to preserve the Catholic identity of the birthplace of our savior: Jesus Christ is a serious concern for Catholics around the world. Sales will be used to help and support the Catholics in the Holy Land and to encourage them not to immigrate.”

SERVE

STEWARDSHIP THOUGHT

In today's first reading, the Israelites are urged to love their neighbors as themselves. In the Gospel, Jesus spells out how we are to do that - to give generously to those who ask of us and not to turn our backs on those who seek to borrow.

PENSAMIENTO ADMINISTRATIVO

En la primera lectura de hoy, a los israelitas se les insta a amar a su prójimo como a sí mismos. En el Evangelio, Jesús explica el cómo vamos a hacer eso - a dar generosamente a los que piden de nosotros y no dar la espalda a los que tratan de pedir prestado.

Nurses Notes

HEART HEALTH

Heart disease is the number one killer of both men and women in the United States.

You can make heart healthy changes to lower your risk of heart disease. Controlling and preventing risk factors is also important for people who already have heart disease. To lower your risk you can:

- Watch your weight
- Quit smoking and stay away from second hand smoke
- Control your cholesterol and blood pressure
- If you drink alcohol, drink only in moderation
- Get active and eat healthy

Heart health gets a major boost from even a small amount of weight loss. See what slimming down can do for your ticker.

Losing 5 to 10 percent of your body weight, you can reduce the risk of heart attack and stroke

Starting small might be a more effective way to approach weight loss. Cutting back about 500 calories a day and getting at least 90 minutes of physical activity a week will get the ball rolling.

Losing weight reduces your heart's workload. If you lose weight, you may be able to reduce your blood pressure medications or even eliminate them. "Weight loss can make your triglycerides go down, your LDL cholesterol go down, and your HDL cholesterol go up." Sometimes blood slows down and can form clots. Healthy weight and lower blood pressure generally mean fewer blood clots. Fat around the belly and the heart are especially detrimental to your heart health.
