Días de Ayuno y Abstinencia durante la Cuaresma

Los Viernes de Cuaresma obliga a no comer carne desde los 14 años de edad.

Viernes Santo es día de ayuno y abstinencia.

Viernes Santo es día obligatorio de ayuno y abstinencia. Ayuno es obligatorio para todos los ma-yores de 18 años hasta los 6°. Ayuno permite a la persona solo comer una comida completa al día. Con dos porciones menores que equivalen a una comida completa. Abstinencia de comer carne es obligación desde los 14 años de edad.

Nadie debe ser escrupuloso si no puede cumplir con algo en día de penitencia, no es considerado serio; mejor dicho si no puede cumplir con ninguna penitencia entonces si es considerado serio"-U.S. Bishops Conference

Lent Days of Fast and Abstinence Good Friday is a day of both fast and abstinence.

Fridays in Lent are obligatory days of complete abstinence (from meat) for all who have completed their 14th year.

Good Friday is an obligatory day of fast and abstinence. Fasting is obligatory for all who have completed their 18th year and have not yet reached their 60th year. Fasting allows a person to eat one full meal. Two smaller meals may be taken, not to equal one full meal. Abstinence (from meat) is obligatory for all who have reached their 14th year.

"No one should be scrupulous in this regard; failure to observe some penitential day is not considered serious; rather it is failure to observe any penitential days at all or a substantial number of such, which is considered serious." -U.S. Bishops Conference

SERVE

STEWARDSHIP THOUGHT

When Jesus asked the Samaritan woman for a drink of water. He opened the door for a life-changing relationship with Him. Scripture says her testimony drew many others to Him as well. We, too, must be ready to respond whenever and wherever the Lord speaks to us and be prepared for it to change our lives!

PENSAMIENTO ADMINISTRATIVO

Cuando Jesús le preguntó a la mujer Samaritana por agua, él abrió una puerta para una relación de cambio de vida con él. Las Escrituras nos dicen que su testimonio atrajo a muchos hacia él también. Nosotros así mismo tenemos que estar listos para responder en cualquier momento y en dondequiera que nos hable el Señor y estar preparados para que cambie nuestras vidas.

OFRENDAS DE LA SEMANA

En el pasado la parroquia iba a publicar las ofertas semanales y compararlas con un monto presupuestado, basado en "Ofrendas parte justa."

La publicación de esta información fue suspendido por recomendación de la diócesis debido a una serie de robos que se han producido en algunos las parroquias de la Diócesis.

Sus ofrendas semanales son muy importantes a la parroquia con el fin de cumplir con nuestras responsabilidades operativas. Pedimos que cada feligrés continuar en oración consideren una oferta consistente que ayude en el cumplimiento de esas responsabilidades. Su generosidad es su retorno al Señor todo el bien para ti.

WEEKLY OFFERING

In the past the parish would publish the weekly offerings and compare them to a budgeted amount, based on "Fair Share Offerings."

The publishing of this information was discontinued at the recommendation of the Diocese due to a number of burglaries that have occurred at some parishes in the Diocese.

Your weekly offerings are very important to the parish in order to meet our operational responsibilities. We ask that each parishioner continue to prayerfully consider a consistent offering that will assist in meeting those responsibilities

Your generosity is your return to the Lord for his goodness to you. Make an investment in the reign of God today!

Nurses Notes:

Stop the spread of superbugs

For almost a century, antibiotics have helped to control and destroy many of the harmful bacteria that can make us sick. Recently, antibiotics have been losing their effectiveness against some types of bacteria. In fact, certain bacteria are now unbeatable with today's medicines. Sadly, the way we've been using antibiotics is helping to create new drug-resistant "superbugs."

Over time, if more and more people take antibiotics when not necessary, drug-resistant bacteria can continue to thrive and spread. They may even share their drug-resistant traits with other bacteria. Drugs may become less effective or not work at all against certain disease-causing bacteria. You can help slow the spread of drug-resistant bacteria by taking antibiotics properly and only when needed. Don't insist on an antibiotic if your health care provider advises otherwise.

Next Week: **Blocking Harmful Bacteria**

Faith Community Nursing
Serving the community is our passion.

IN CASE OF AN EMERGENCY

PLEASE use the phone at the AV booth or in the office to call 911. Do not use your cell phone it will reach Sacramento CHP and precious time will be lost.
