## SERVE

### STEWARDSHIP THOUGHT

“The one who has faith in me will do the works I do, and far greater than these,” Jesus tells his disciples. That’s quite an assignment for us as Christian stewards!

### PENSAMIENTO ADMINISTRATIVO

“El que confía en mí, hará el trabajo que yo hago y mas que esto, “Les dice Jesús a sus discípulos. Es algo muy grande para nosotros los líderes Cristianos.

### *Nurses Notes*

#### **May is Melanoma/Skin Cancer Detection and Prevention Month**

##### **Why should I be concerned about skin cancer?**

Skin cancer is the most common type of cancer in the United States. About one million Americans get it each year. The number of new cases of skin cancer appears to be rising each year. The number of deaths due to skin cancer, though, is fairly small. The good news is that skin cancer is now almost 100 percent curable if found early and treated promptly.

Ultraviolet (UV) radiation from the sun is the main cause of skin cancer. Other sources of UV radiation, such as sunlamps and tanning booths, also can cause skin cancer. Although anyone can get skin cancer, the risk is greatest for people who have:

- skin that tans poorly or burns easily
- a large number of moles, especially abnormal moles

Most skin cancers appear after age 50. But the sun's damaging effects begin at an early age. So, protection should start in childhood to prevent skin cancer later in life.

Melanoma is the most serious cancer of the skin, affecting cells that produce and transport the pigment melanin—the substance that gives skin its color. In 2009, an estimated 68,720 new cases of melanoma and 8,650 deaths from melanoma was predicted.

Melanoma is a common cancer in light-skinned individuals: African Americans are less likely to develop the disease. If caught in its early stages, and with treatment, more than 75 percent of patients with melanoma survive at least five years after diagnosis.

**Next Week:** Prevention

**PLEASE-** Remember to use the phone in the office or at the AV area in the hall and not a cell phone to call 911. Your cell phone will reach Sacramento CHP and precious time will be wasted.

### Donate your old DVD's and VHS Tapes

One of our youth, Alex Yates, is working on his Eagle Scout project. His objective is to collect DVDs and VHS tapes for Brentwood Seniors to use and borrow. These will enhance the current library that is at the center.

He will be starting to collect any DVDs and VHS tapes that parishioners of St. Anne wish to donate before and after the Sunday 10:30am Masses for the month of May. A collection basket will be placed by the font.

By donating your old or unwanted DVDs and VHS tapes, it will enhance the current library and will provide entertainment for the seniors who will be able to borrow them from the library to counter feelings of isolation and loneliness. It also helps those who are on limited budgets and income; afford to have entertainment that they might not otherwise be able to experience.

Thanks for your time and support. Your donations will be greatly appreciated by the Senior Citizens of Brentwood.

Reason shines as an admirable sign of the intelligent capacity of man. Can reason help us better understand the teachings of the Faith? Why do some believe and others don't? Our Faith teaches us that Christ is present in the Eucharist: Learn about the Eucharistic Miracles from Lanciano, Bolsena, Gorkun, in our times, and discover the place where Science embraces Faith. Don't miss this incredible event...Dr. Ricardo Castañón is an investigator and president of "International Group for Peace". "I was an atheist says Dr. Castañón, but after years of studies on the human brain and Eucharistic miracles, began to find the relationship between faith and reason".
