Mosquito bites

It's that time of year again when the pesky mosquitos come out to bite you. I took my dogs for a walk the night before and I noticed there were a lot of mosquitos flying around. The next morning I had about six mosquito bites on both my arms, and then the itching began. The topic this week is how to better prevent, protect, and heal yourself from mosquito bites.

Definition

Mosquitoes — and mosquito bites — are annoying. What's worse, mosquito bites sometimes transmit serious diseases, such as West Nile virus, malaria and dengue fever. You're most likely to get mosquito bites at dawn or at dusk, when mosquitoes are most active. But, it's not always possible or desirable to stay indoors during those times. Fortunately, you can take steps to keep mosquitoes at bay. However, no method is foolproof. If you do get bitten, the telltale signs and symptoms of mosquito bites — redness, swelling and itching — may not show up for up to two days after you've been bitten. A number of treatments, such as oral antihistamines and topical lotions, can ease the itch from mosquito bites

Symptoms

Common signs and symptoms

Typical signs and symptoms of mosquito bites include:

- Soft, initially pale bumps on your skin that can become pink or red
- Itching

The bump that results from a bite can appear immediately or may take up to two days to appear. If you're highly sensitive to mosquito bites, you may have a much larger area of itching.

Severe allergic reaction

Rarely, a serious reaction to mosquito bites might occur, which results in swelling in the throat, significant hives and wheezing. This life-threatening condition (anaphylaxis) requires immediate medical attention.

Next Week: Mosquito Bites, Con'd

PLEASE- Remember to use the phone in the office or at the AV area in the hall and not a cell phone to call 911. Your cell phone will reach Sacramento CHP and precious time will be wasted.

Reason shines as an admirable sign of the intelligent capacity of man. Can reason help us better understand the teachings of the Faith? Why do some believe and others don't? Our Faith teaches us that Christ is present in the Eucharist: Learn about the Eucharistic Miracles from Lanciano, Bolsena, Gorkun, in our times, and discover the place where Science embraces Faith. Don't miss this incredible event...Dr. Ricardo Castañón is an investigator and president of "International Group for Peace". "I was an atheist says Dr. Castañón, but after years of studies on the human brain and Eucharistic miracles, began to find the relationship between faith and reason".
