STEWARDSHIP THOUGHT

Seeing Jesus transfigured made Peter want to *do* something to mark the event. But the Voice from the cloud said clearly that the first task of those who recognize Jesus as Lord is to *listen* to Jesus – and then act!

Pray for the reposed soul of the faithful departed: Ronald E. Knapel

Catholic Action Principles *Stay Centered*

In the battles of life, you will take punches. Some may hurt. This too will pass. You are the center of your universe. Take care of your own needs first. Then go to your family, then to friends, neighbors and employees. Move on to the larger communities. Don't use saving the world as an excuse to forget your family. Don't allow others to rush or pressure you to act before you can decide what is right. The most important thing that a father can do for his children is to love their mother. The most important thing that parents can do for their children is to raise them in the Catholic Faith.

Stand with your knees slightly bent. Head up. Breathe deeply from your belly. You are a very small part of the grand scheme of things. You are one with the universe. You are everything and nothing. Remain calm, balanced and aware. In a moment, a short prayer can bring you back to center.

Celebration of the Sacrament of the Sick

"Is there anyone sick among you? Let him send for the presbyters of the church and let them pray over him, anointing him with oil in the name of the Lord. The prayers of faith will save the sick man and the Lord will raise him up. If he has committed any sins, they will be forgiven him." James 5:14-15

The Sacrament of the Sick is for all who are suffering from physical or mental illness, for those who will be undergoing surgery or elderly people who have become notably weakened even though no serious illness is present. Please join us on **Saturday, August 14th at 11:00 AM** in the CLC for Mass and anointing of the sick. Hospitality to follow.

Nurses Notes

Summer is here and things are "Heating Up"

SUNBURN PREVENTION

The best way to prevent sunburn is to avoid sun exposure. Stay out of the midday sun (from 10 in the morning til 4 in the afternoon), which is the strongest sunlight. Find shade if you need to be outdoors. You can also calculate how much ultraviolet (UV) exposure you are getting by using the "shadow rule". A shadow that is longer than you are means UV exposure is low; a shadow that is shorter than you are means the UV exposure is high.

Other ways to protect yourself from the sun include wearing protective clothing, such as:

- ⇒ Hats with wide 4 in. brim that cover your neck, ears, eyes, and scalp.
- ⇒ Sunglasses with UV protection.
- ⇒ Loose-fitting, tightly woven clothing that covers your arms and legs. Some outdoor stores may sell clothing treated with sun protection factor.
- ⇒ Do not use tanning booths to get a tan. Artificial tanning devices can cause skin damage and increase the risk of skin cancer.
- ⇒ If you can't avoid being in the sun, use a sunscreen to help protect your skin while you are in the sun.
- ⇒ Use a sunscreen that has a sun protection factor (SPF) of 30 or higher. Sunscreens that say "broad-spectrum" can protect the skin from ultraviolet A and B (UVA and UVB) rays. Sunscreens come in lotions, gels, creams, and ointments.
- ⇒ Apply sunscreen at least 30 minutes before going in the sun.
- ⇒ Apply sunscreen to all skin that will be exposed to the sun, including the nose, ears, neck, scalp, and lips. It takes about 1 fl oz to cover an adult's body.
- ⇒ Apply sunscreen every 2-3 hours while in the sun and after swimming or sweating a lot. The SPF value is decreased if a person sweats heavily or is in the water. Sunscreen effectiveness is also affected by the wind, humidity, and altitude.

Next week- Eye Health

PLEASE- Remember to use the phone in the office or at the AV area in the hall and not a cell phone to call 911. Your cell phone will reach Sacramento CHP and precious time will be wasted. *Your Faith Community Nurses*
